The two-day training is based on the program developed by Iris Bolton, author of *My Son, My Son*. This training is relevant for both survivors and professionals who wish to create and facilitate a support group for survivors of suicide or to increase their skills in this area. Support teams are also trained to be volunteers available to make home visits when requested by the family in the crisis of their loss.

Survivors who are at least 18 months to two years after the suicide of a loved one may find meaning in their loss by giving to others who are recently bereaved.
